DETAILED ACTION

This office action is in response to the amendment and remarks filed 11/23/2007.

Allowable Subject Matter

1. Claims 1-16 are allowed.

With respect to claim 1, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "a means for directing said fuel injector control signals to said selected fuel injector groups to modify the pulse duration and/or frequency of said fuel injector groups in response to a deviation from desired engine speeds caused by variable operating loads encountered by said turbine engine", in combination with the other claim limitations.

With respect to claim 7, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "directing said fuel injector signals to said selected groups of fuel injectors to modify the pulse duration and/or frequency of fuel injection of said groups independently from each other in response to a deviation from desired engine operating parameters caused by variable operating loads encountered by said turbine engine; and delivering fuel in pulses to said combustion chamber using said selected groups of fuel injectors", in combination with the other claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
